Seeking to increase my technical experience in computer systems and adaptability to alleviate hardware-software integration challenges and technical support responsibilities for the position as Computer Engineer. Skilled at creative design, data analysis, and management. Looking forward to contributing more to the company and learning through.

Experience

DataStructureAlgorithm Project | Project Member | *December 2025 - January 2026*

- Collaborated with a 4-person team to build a Python-based DSA visualization suite.
- Developed and optimized a "Binary Search Tree" to search and display the data asked.

Voice Language Translator | Independent Developer | *June 2025*

- Engineered a voice language using Python and Tkinter, implementing core object-oriented programming (OOP) principles.
- Developed a language translator that you can use your real time voice to generate a translated text and audio.

Gwihan K-Merch | Sales Operation Coordinator | *April 2021 - June.2021*

- Handled the tracking of orders and inventory via Spreadsheet while also handling some customer support.

ICPEP-SE PUP Manila | Member | *September 2024 - Present*

- Active member of the Institute of Computer Engineers of the Philippines - Student Edition

Education

Polytechnic University of the Philippines | Bachelor's Degree *Sta. Mesa, Manila* | *September.2024 - Present*

Major: Bachelor of Science in Computer Engineering | 2nd Year

Relevant Coursework: Programming Logic and Design, Object-Oriented Programming, Computer Hardware Fundamentals, Data Structures and Algorithms, Advanced Engineering Mathematics, Operating Systems.

FEU Roosevelt Rodriguez | Senior High School Diploma | *2022 - 2024*

Strand: Science, Technology, Engineering, and Mathematics | With Honors

FEU Roosevelt Rodriguez | Junior High School Diploma | With High Honors | *2018 - 2022*

FEU Roosevelt Rodriguez | Elementary Diploma | With Honors | *2012 - 2028*

Skills

Bilingual (English, Filipino) • Python • R • Github • Adobe • Canva • Blender • JavaScript • Time Management • Adaptability • Technical Documentation • Organization • Breadboarding • Microsoft Office | ■ *All professional proficiency or above*

Projects

Data Structures & Algorithms Visualization

- Developed a Python-based graphical suite using Tkinter to visualize fundamental DSA concepts.
- Binary Search Tree: Built a Binary search tree that applies order traversals and nodes.
- Team Collaboration: Worked alongside a team to integrate Stack, Binary Tree, and Recursive modules into a unified software package.

LANGVO: Voice Transcript and Translate

- Developed an audio transcriber and translator using Python with the help of Elevenlabs and Gradio
- Features a microphone access to which it can transcribe the user's input and will receive an output of audio on their preferred language.
- Designed for functionality and accessibility

TESTTY: Quiz Creator

- Developed a quiz application that allows users to enter their own questions with a time limit and highscore tracker using Python.

Color Game

- Developed a classic color game that involves Python and Tkinter where users can identify the color displayed.
- Features an interactive GUI for readability and controls.
